

PRELIMINARY REVIEW SUBMITTAL PROCEDURES AND CHECKLIST P-14

[Development Services](#)

Planning Division
1635 Faraday Avenue
(760) 602-4610
www.carlsbadca.gov

WHAT is a Preliminary Review?

It is an early, informal review of your project by the Planning and Land Development Engineering Divisions prior to a formal application submittal. The Preliminary review is required for projects within the Commercial/Visitor-Serving Overlay Zone.

WHY should you do a preliminary review?

- To obtain early project direction
- To reduce your development costs
- To shorten your processing time
- To alleviate costly redesigns
- Required for projects in the Commercial/Visitor Overlay Zone
- Required for affordable housing projects

WHAT you need to give us:

- Application form **(signed by the owner(s) of the property unless applicant has sufficient legal interest in the property.)**
- Checklist
- Four (4) sets of your site plan **folded to 8½ x 11**. Provide enough details to allow staff to adequately review your plans and answer your questions. Projects within the Commercial/Visitor-Serving Overlay Zone shall provide conceptual building elevations
- Fee (See current fee schedule for cost)
- Other information you want to provide to explain your proposal

WHEN and WHERE to submit:

Your application may be submitted at the Planning Division counter at 1635 Faraday Avenue, from 7:30 a.m. to 4:30 p.m. Monday through Thursday or 8:00 a.m. to 4:00 p.m. on Friday.

HOW your application is processed:

After a submittal is made, a staff planner and staff engineer will be assigned to take your project to their respective staff meetings for review. You may either make a brief presentation prior to the staff meeting to discuss your project with your staff planner and engineer or after the receipt of a response letter from the City to discuss the staff comments. If you indicate this on the application form you will be contacted to set up a meeting time.

Written responses to your submittal will be mailed following the staff meeting review and should be received by you within thirty days after the review date. A copy of your project will be kept on file in the Planning Division.

Should you submit a formal application in the future, the Planning Division will make every attempt to assign the application to the same staff planner who processed your Preliminary Review Application.

The preliminary review does not represent an in-depth analysis of your project. The completeness and accuracy of your submittals will dictate the quality of your project's preliminary review. Additional issues of concern may be raised after your application is formally submitted and processed for a more specific and detailed review.

PRELIMINARY REVIEW CHECKLIST

Staff would like to know what information you primarily want from this review. With this known, we can focus most of our attention on researching and answering your main questions(s). Please check the one or two boxes below which best describes the information you would like us to concentrate on, and/or check the box marked "other" and tell us in your own words what information you would like from us.

SITE DESIGN:

Focus is on reviewing issues such as development standards (setbacks, building height, etc.), hillside compliance, landscaping, signage, open space requirements, and other physical aspects of zoning. Plans adequately illustrating these features are needed for review.

LAND USE:

Focus is on determining the compatibility of the proposed land use with the existing general plan and zoning designations, determining whether staff could support a general plan amendment or zone change, and determining compatibility of the proposed land use with surrounding land uses.

ARCHITECTURE:

Focus is on establishing quality architecture and checking its compatibility with the surrounding area and against any applicable guidelines or plans. Building elevations or other architectural information are needed for review.

ZONING INTERPRETATIONS:

Focus is on interpreting any aspects of the zoning ordinance.

LAND DEVELOPMENT ENGINEERING STANDARDS:

Focus is on reviewing all engineering-related issues, such as grading, drainage, Best Management Practices for Storm Water Pollution Control, circulation and traffic, street vacations, easements, subdivisions, etc.

OTHER:

In the space below, please list any other issues you would like us to review.

CITY OF CARLSBAD APPLICATION FORM FOR PRELIMINARY REVIEW APPLICATION

CITY USE ONLY
Project Number: _____

PROJECT NAME: _____

Assessor's Parcel Number(s): _____

Description of proposal (add attachment if necessary): _____

Would you like to orally present your proposal to your assigned staff planner/engineer? Yes No

Please list the staff members you have previously spoken to regarding this project. If none, please so state.
