## Joseph Brown Turner. *Genealogical Collection*

Joseph Brown Turner. *Genealogical Collection*. 647 microfiche. Dover, DE: State of Delaware, Division of Historical and Cultural Affairs, 1978. GEN MICROFICHE CPS 1007

This is a microfiche edition of a manuscript collection compiled by Reverend Joseph Brown Turner. The collection consists of “genealogical notes concerning several thousand families, with emphasis upon those living on the Delmarva Peninsula [**D**elaware, **M**aryland, **V**irginia]. The records range in content from the medieval period to 1935, but principally of the 17<sup>th</sup> through 19<sup>th</sup> centuries.” The notes are arranged alphabetically by surname. Each fiche represents a folder in the original arrangement of the collection. The fiche is negative film and often difficult to read.

There is an index on fiche 1-40. The index is arranged alphabetically by surname. Each entry includes a location (county, state, or country) and the reference. The reference may not be to material in this collection but to other documents, books, and articles.

In order to use this collection, researchers must present a completed “GENEALOGY MICROFICHE REQUEST FORM” to the staff at the Genealogy Desk and either a Carlsbad City Library card or a driver’s license as security. Request the index and the fiche for surnames.
