Dear Mayor Hall, City Council, City Manager, and City Attorney:

I am disappointed about the council's decision to hold this meeting. The Mayor and City Council positions are non-partisan positions, and are meant to deal with local Carlsbad issues. Federal and state laws preempt City laws. There is no reason to add fuel to the fire of an already fully burning debate when the issues are not part of our city government's responsibility or jurisdiction.

The state and federal governments already have branches designated by law to deal with this issue. It is complex and divisive. Please do not entangle our city in needless posturing.

Sincerely,

Melba Novoa
Carlsbad resident

Dear Mark Packard,

I hope you will side with us American citizens regarding SB-54!
We need ICE to do their job in California. Mexico deports illegal aliens without the benefit of even a hearing. And we should do the same!

Best Regards, Priscilla Espinoza

SB 54 shields and protects criminal aliens. PLEASE take a stand for public safety and oppose this law!
