

City Directories

The following pages list the call number for City Directories located in the microform collection in the Genealogy Collection at the Georgina Cole Library. In addition to the microform copies, please note that city directories are available through two of our subscription databases; Ancestry Library Edition and Fold3. Ancestry Library Edition and Fold3 are available at all three library locations in the computer labs and on the Library's Wi-Fi (Library Guest). Carlsbad City Library cardholders can also access Fold3 remotely through our webpage:
