Entertainment License

The Barrio Carlsbad Community Advocates are opposed to this proposed ordinance. This ordinance was prepared by and for strictly business interests (paragraph 4, page 3 of 33). as a result of an outreach meeting with "10 business owners and representatives from eight business establishments". There was no such meeting of Barrio residents for public outreach or participation.

Over the years Barrio residents have been dealing with the impacts of persons walking through the Barrio Districts after a night in the Village night spots. Inebriated persons getting sick in front yards, relieving themselves, loud and inappropriate conduct and music from the downtown Village night spots serving alcohol.

It is important to point out that Barrio Carlsbad is a culturally sensitive area and we disagree with the Police Department opinion that this ordinance would have no adverse effect on public safety (paragraph 2, page 2 of 33) or quality of life.

We believe that there has been no public outreach that we are aware of, for residents of Barrio Carlsbad to provide input or propose changes to this ordinance.

This ordinance is an effort to provide uniformity and consistency throughout the city without regard to its impact on the Barrio community.

The Environmental Evaluation indicates that there is no potential to cause either a direct physical change in the environment etc... We disagree. Residents of Barrio Carlsbad are also a part of the environment, historically and culturally. Any actions on the part of the city that may adversely impact our community should be subject, at the very least, to an opportunity to address such action at a meeting to accept public input on the matter at hand.

The problem in the preparation of this ordinance is that the public outreach conducted did not include residents of the Barrio. It was limited to "individual business meetings and group stakeholder meeting".

For these reasons, we ask and will request at the City Council meeting of March 12, 2019, that consideration of this ordinance be tabled pending action by the city to hold public outreach meetings to allow Barrio Carlsbad residents to provide input and propose amendments to this ordinance.

Simon Angel, BCCA
