Cost Estimate _____ x Fee Percentage ____ = Fee .
- 11. Inspection Fee (*based on current fee schedule)
Cost Estimate _____ x Fee Percentage ____ = Fee .
- 12. County of San Diego Plan Check Fee (Check made out to "County of San Diego")

Carlsbad Municipal Water District & County of San Diego Review:

All landscape and irrigation plans shall be submitted to the Planning Division located at 1635 Faraday Avenue, Carlsbad by the applicant for their review and approval. Plan check and inspection fees are due at the time of submittal.

Applicants using or designing for recycled water must also submit a recycled water plan check application form (County of San Diego Dept of Environmental Health). There is a separate fee for the recycled plan check review. Both the plan check form and fee (check made out to the County of San Diego) are submitted together with the landscape application to the City of Carlsbad Planning Department. The City will forward the plancheck and fee to the County of San Diego.

Documentation of approval of the plans from the Carlsbad Municipal Water District and the County of San Diego must be submitted to the City and will be required prior to approval of Construction Drawings.

INSPECTIONS:

CMWD Reclaimed Water Inspection:

1. District Construction Inspection Shall Include:
 - A. Required separation between potable and recycled water lines (horizontally and vertically).
 - B. Pipe Identification
 - C. Sleeving at crossings.
 - D. Appropriate materials and markings, including proper quick couplers.
2. District Final Inspection Shall Include:
 - A. Signage installed per plan.
 - B. Controller Stickers.
 - C. Tagging of valves.
 - D. Coverage test after completion of the sprinkler system to ensure protection of area not approved for recycled water use.
 - E. All aspects of the irrigation conditions including windblown spray, runoff, and ponding.
 - F. Required protection of all residential areas.
 - G. Required protection of wells, streams, reservoirs, etc.
 - H. Cross-connection test if required.
 - I. Color coded, laminated charts inside each controller.
3. Annual Inspection Shall Include:
 - A. A complete inspection that will cover A – I of the District Final Inspection.

Landscape Inspection:

The City will now conduct only a final inspection for landscape improvements. Project Landscape Architects are required to monitor the installation and when completed provide a certification letter to the City indicating that the installation has been installed per the City approved plans and specifications. When the City receives this certification letter from the Project Landscape Architect, the City inspector will review the installation to confirm its completion.
