Permit #: Assessor's Parcel Number:

Site Address:

Owner's Name:

This is to affirm that on (date) the structure being constructed on the site was surveyed by, or under the direction of, the undersigned. The height from the lower of natural or finished grade to the highest finished point of the roof ridge elevation, or any part of the structure immediately above, was found to be in conformance with the approved plans.

Surveyed height measurement (top of roof sheathing) at point(s) identified in approved plans as the highest point(s) of the structure above lower of natural or finished grade elevation.

(Attach 8 1/2"x 11" sheets showing elevation(s) of structure where measurement(s) were taken and location on site plan where they were taken)

Total thickness of roofing materials (i.e. felt and roofing) to be installed after sheathing inspection, not to exceed:

Total Height:
